WINCHESTER — Geocaching is a hi-tech treasure hunting game played around the world by adventure seekers equipped with GPS devices and South Nation Conservation doesn't want to be left out. That's why the conservation authority has combined with geocachers of Eastern Ontario to present an event this Saturday at Cass Bridge Conservation Area off Hwy. 31 south of here beginning with breakfast at 8 a.m.

It's a cache in/trash out hunt, with participants searching for recently placed geocaches while picking up garbage along the way. Details are at www.nation.on.ca.
