Jim Brownell was presented with a plaque honouring his efforts to secure provincial funding for South Nation Conservation authority Thursday during the SNC's monthly board meeting in Finch. Brownell also announced the authority is receiving a third \$6,630 installment from the Water and Erosion Control Infrastructure program, under the Ministry of Natural Resources. The money is being used to purchase new maintenance bay logs at the South Nation River's Chesterville Dam and help to fund another project under the program.
