

## **South Nation Conservation Authority supports Spencerville Mill**

South Nation Conservation Authority has presented the Spencerville Mill Foundation with a healthy investment of \$1,000, in the form of two prestigious grants, the Director's Discretion Grant and the River Grant. On hand for the presentation held in Edwardsburgh/Cardinal Council Chambers prior to the Monday night meeting, were SNCA Chair, Lawrence Levere and Spencerville Mill Foundation Chair, Brenda Ball. The grants, explained Levere, are given out annually in order to support organizations that aim to promote the South Nation River. "We try to spread these grants around, but this year The Mill proved to be the best fit for the recipient," said Levere, adding that the SNCA has given out 11 \$500 grants to various organizations along the South Nation watershed and plans to give out more in 2012. In regards to the Mill, Ball said that the funding from the grants will be used to enhance the grounds.
