SNC Notice

Date: March 29, 2010

Time: 4:05 pm

Prepared By:
Sandra Mancini

Finch – On Saturday March 27th, 2010, South Nation Conservation was called to the scene of a landslide in the Nation Municipality. The incident occurred at about 3:15 Saturday afternoon on Villeneuve Road, north of County Road 3, about 2.5 kilometers northwest of St. Isidore where approximately 200 ft. of Villeneuve Road has been destroyed.

There were no injuries or damage to structures reported as a result of the event and while there are buildings in proximity to the landslide area, they are not considered to be in jeopardy. Water is flowing through the west branch of the Scotch River. There is no imminent danger of flooding however, an increase in water levels upstream of the area has been recorded.

Nation Municipality and South Nation Conservation staff met on site with a geotechnical engineer to evaluate the current conditions and discuss plans to stabilize the site and reinstate the road. Preliminary observations indicate that any further movement will be minor however a more thorough survey will be completed by a qualified Professional Engineer tomorrow.

SNC staff will continue working with the Nation Municipality to mitigate the landslide hazard.

If you have any questions please feel free to contact Gord Shaver at 1-877-984-2948, extension 296.

Our Local Environment. We're in it Together.  Notre environnement. Nous le partageons.
