

The St- Albert Cheese Co-op has continued their commitment to water quality initiatives with the presentation of a \$5,000 cheque from President Denis Latour (left) to the South Nation Conservation Clean Water Program. The latest donation raises the total invested by the co-operative to \$46,000 since 2004. Denis Perrault, chair of the South Nation Conservation Clean Water Committee accepts the cheque from Latour who said the funding not only helps improve water quality in the watershed, but is also a way to give back to the agricultural sector. "We're proud to be associated with the Clean Water Program," said Latour. "We consider our contribution to be part of our overall support of the community and the region." The Co-op, made up of 40 local farm operators, sponsors many community events including the upcoming Festival de la Curd (August 17-21).
