

Hydrogeologist, Risk Management Official

Full time, Finch, Ontario

Hours: Monday-Friday (8:00 a.m.-4:00 p.m.)

Salary Range: TBD

Start Date: ASAP

At South Nation Conservation (SNC) you will be immersed in a diverse professional environment, where you will thrive in a multi-disciplinary community that includes engineers, planners, biologists, foresters, and GIS technicians.

SNC's strength lies in our experience performing and applying cutting edge science and research at the community level. Our entrepreneurial culture is a dynamic combination of government and private sector, in which you will have the scope to lead innovative projects to protect and enhance our local environment.

POSITION DETAILS:

Reporting to the Director of Property and Approvals, you will be required to complete technical reviews of hydrogeological reports, support groundwater research initiatives for various environmental projects, and oversee and improve the Authority's groundwater monitoring programs. In addition, you will be required to support groundwater related aspects of the planning program.

One of your roles will be to assist in the coordination and delivery of the South Nation-Raisin Source Protection Program; as a Risk Management Official/Inspector preparing Risk Management Plans, Assessment Reports, reporting requirements, and additional implementation activities.

You will be required to manage various internal and externally led projects which collaborate with various partners such as federal and provincial government agencies, academia, community groups, municipalities, politicians, farmers, and local businesses.

WHAT YOU OFFER:

- A Bachelor of Science or Engineering degree with a specialization in Geoscience. Post-graduate education is an asset.
- Certification as a Professional Geoscientist or Professional Engineer.
- Minimum 3 years related experience.
- Excellent project management and technical writing skills.
- Knowledge of provincial and federal standards, regulations and guidelines relevant to Geoscience. Knowledge and experience with the Clean Water Act and Source Water Protection preferred.
- Strong interpersonal and communication skills.

SOUTH NATION
CONSERVATION
DE LA NATION SUD

- Proficient in the operation and use of MS Office Suite products and knowledge of groundwater databases and groundwater modeling software.
- Proven experience and knowledge of current standard practices related to groundwater monitoring, groundwater sampling and the analysis of groundwater data.
- Valid G class driver's license.
- Bilingualism (French and English) is an asset.

LOCATION:

The SNC office is in a rural location in Finch, Ontario, southeast of Ottawa. The successful candidate must have reliable transportation.

SUBMISSION INFORMATION:

Forward Resumes by 8am on April 18th, 2016 to:

Carl Bickerdike
Team Lead, Corporate Services
cbickerdike@nation.on.ca

Please quote '*Hydrogeologist, Risk Management Official*' in the subject line. Submitted resumes must be in Word or pdf format.

Thank you for your interest in South Nation Conservation; however only those candidates selected for an interview will be contacted.
