## Ontario Woodlot Association (OWA)

The Ontario Woodlot Association (OWA) is a provincially based, non-profit organization with a network of regional Chapters across the province.

The membership believes that private landowners have a key role to play to ensure that sustainably managed forests remain part of Ontario's future.

1992: the OWA was formed with 35 members.

2014: now 20 Chapters across Ontario with over 1,600 members.

Allows members to participate with others close to home in "hands-on" activities such as workshops, woodlot tours, demonstrations, and other learning activities.

Provides landowners with internet based "A Landowners Forest Services Directory" and "Woodlot Marketplace".

**Champion Donor Program**: as a non-profit organization the OWA is proud to represent over 165,000 private woodlot owners throughout Ontario. The program raises funds towards ensuring that healthy, productive and sustainable managed forests remain as part of Ontario's Future.

## Woodlot Advisory Service (WAS)

The S.D.&G. Chapter of the OWA has partnered with South Nation Conservation to provide landowners interested in preparing a Forest Management Plan (FMP) for their property with a **\$500 rebate**.

South Nation Conservation provides the rebate for landowners residing within their watershed while the S.D.&G. Chapter provides the rebate for landowners residing within S.D.&G.

To be eligible for the rebate landowners must become members of the Ontario Woodlot Association (OWA) for a minimum of 1 year (membership fee: \$45) and provide a Managed Forest Tax Incentive Plan (MFTIP) written by an MFTIP approver.

## Alternative Land Use System (ALUS)

The S.D.&G. Chapter is providing up to \$500 funding towards planting materials for ALUS projects

ALUS is a farmer-led, farmer delivered program that provides annual payments to farmers to preserve and enhance nature's benefits on their properties.

ALUS is in search of farmers interested in retiring marginal, inefficient, and fragile lands for conversion into natural areas (e.g. wetland creation/enhancement, buffer zones, tree planting).

To be eligible landowners must have a valid Farm Business Number.

## S.D.&G. Chapter of the OWA

The S.D.&G. Chapter of the OWA is a Not-for-Profit service organization of private woodlot owners within the United Counties of Stormont, Dundas & Glengarry that promotes responsible and long-term forest management practices.

- **2006**: the S.D.&G. Certified Forest Owners was formed with 8 members.
- **2007**: became a not-for-profit incorporation.
- **2009**: partnered with the Glengarry Pioneer Museum to start the Glengarry Wood Fair and Wood Auction.
- **2011/12**: received Ontario Trillium Grant to assist landowners with forest based activities on their properties.
- **2013**: signed Memorandum of Understanding (MOU) with South Nation Conservation to partner in providing local forestry services such as the Woodlot Advisory Service (WAS), workshops and tours.
- **2014**: dissolved the S.D.&G. Certified Forest Owners Inc. and joined the OWA as a Provincial Chapter.
- **2014**: current membership is 66 with a forest base of 1,500 ha (3,706 acres).
