

# Clean Water Committee Project Update

September 12<sup>th</sup>, 2022

# The Healing Place: Three Sisters Garden

Three Sisters Garden planting with partners  
June 27<sup>th</sup>, 2022  
Edwardsburgh/Cardinal

## Thanksgiving Harvest Event October 5<sup>th</sup> , 2022 10 a.m. – 2 p.m. *(details to follow)*

- Special thanks to:
  - **Havekes Land Improvement** for donating their time and equipment to help construct the garden beds
  - **Township of Edwardsburgh/Cardinal** for continued mowing at the site

# OPG Partners Visit – August 9<sup>th</sup>, 2022

75  
1947-2022

Oak Valley – shoreline stabilization project  
North Dundas

Bob Graham CA – wildlife ponds  
South Dundas

The Healing Place – 3 Sisters Garden  
Edwardsburgh/Cardinal

# OPG Biodiversity: Gamble Update

Gamble property located in Manotick Station  
August 29, 2021

- Ontario Heritage Trust property that SNC manages on their behalf.
- After the EAB-infected ash trees removed and invasive Buckthorn cut & treated, SNC staff will plant with native trees and shrubs to help suppress buckthorn regrowth.

# OPG Biodiversity: Garlandside Update

Damage to trees after wind storm,  
August 29, 2022.

- Buckthorn stand cut and treated with Garlon in fall of 2021.
- Treated site planted with 1,300 native trees and shrubs in spring of 2022.
- Survival assessment can't be completed until snagged and broken trees are cleared.

# Natural Processes – Erosion at Oak Valley

Shoreline Erosion Repair, July 2022  
J. Henry Tweed CA  
Russell Township

- Shoreline erosion repair using bioengineering techniques
- Replanting with native trees and shrubs this fall

Late-cut Hay Field  
SNC 164, The Healing Place, Edwardsburgh/Cardinal

- SNC continuing work at the Healing Place Property to rejuvenate the hay fields and produce bird-friendly hay
- Hay was late-cut in August and second fertilizer application completed

# Conservation Lands: Pollinator Habitat

Pollinator Meadow, Site Preparation  
Mill Run Conservation Area, Augusta

- SNC was awarded funding from the Canadian Wildlife Federation to build a pollinator meadow
- Site preparation being completed and seeds to be sown in late fall

# Invasive Plant Management

DSV intertwined in thick re-growth vegetation from last winter's selective cut.

- Many SNC properties infected with invasive alien plants. Many are detrimental to biodiversity, lumber production and can cause hazards.
- Three SNC staff are certified to use pesticides. Chemical controls are an integral component of IAS plant management.

# Wetland Restoration Partnership

- Design completed by SNC
- Partnership with ALUS Ontario East
- Construction this Fall

St. Isidore, Nation Municipality

# Municipal Drain Sampling

2015 Drain sampling Alfred/Plantagenet

- Funding from Fisheries and Oceans Canada to classify six unrated municipal drains
  - 3 drains in N. Stormont
  - 1 drain in Alfred/Plantagenet
  - 1 drain in City of Ottawa
  - 1 in the Nation

Our Local Environment, We're in it Together.
