

1982

**May 26, 1982**

**CHESTERVILLE** – Don't tell 17-year-old Greg Vanden Dosch that Canadian politics is dull. He has first hand experience that it isn't.

The Grade 12 North Dundas high school student recently spent four days in Ottawa seeing politicians in action, and though he isn't a political buff, he found parliament exciting.

"It was a little slow at times, but definitely not boring," said Greg. One of the dramatic moments was when Tory MP John Crosbie was expelled from the House of Commons, he said.

**BERWICK** – Severe flooding in Crysler has prompted the South Nation River Conservation Authority to initiate a report and investigation of both the causes of the flooding and cost of preventative work.

Gaston Patenaude, chairman of the Water Management Advisory Board offered the resolution as part of a report presented to the SNRCA executive committee meeting last Wednesday.
