

# Family trees

"A Family, A Tree" is the theme of a program the Prescott-Russell Stewardship Council is promoting this year in its ongoing efforts to enhance awareness of the flora and fauna of the district.

By encouraging individuals, families and organizations to plant trees in 2012, the council hopes to remind the public of the importance of protecting forest cover, notes council president Manon Besner.

Those planning to participate in the community greening project must register before April 1 and plants trees between that date and May 30, 2012.
