The **Ontario Federation of Anglers and Hunters (OFAH)** is currently searching for hard-working, motivated individuals to assist with our Invading Species Awareness Program (ISAP).

Key Responsibilities:

- Become familiar with the biology and impacts of priority invasive species affecting local environments;

- Answer inquiries from the public regarding invasive species;
- Assist with the implementation of invasive species management projects in conservation areas, public, and/or private lands, including invasive species control and stewardship outreach initiatives;
- Attend and provide support to community events, such as Family Fishing Day, Children's Water Festivals, fishing derbies, community fairs, regattas, lake association meetings, etc.;
- Conduct presentations and/or training sessions virtually or in-person to various community organizations and volunteers;
- Participate in and coordinate community groups in stewardship and monitoring activities (e.g. water soldier and European water chestnut monitoring);
- Assist with the development of educational materials on invasive species;
- Contribute articles/information to local newspapers, newsletters, and/or conduct radio interviews;
- Engage audiences in invasive species awareness through communications on social media platforms (e.g. Facebook, Twitter, Instagram);
- Inventory, monitoring, and/or removal of invasive species, and enter data collected into the Early Detection and Distribution Mapping System (EDDMapS);
- Process data collected on invasive species distribution;
- Become familiar with the principles of field work (e.g. accurate data recording, use of technical equipment, record keeping etc.); and
- Develop computer skills utilizing tools such as Microsoft Excel, Word, Outlook, EDDMapS, iNaturalist, Google Drive.

Education and Qualifications:

- Minimum of one year of college or university education in biology, environmental science, or a related resource management program;
- Minimum of one year of education and/or experience in the following areas: monitoring local waters and natural areas for invasive species, public education and awareness, plant, fish and invertebrate identification, field work, and data collection;
- Between 15 and 30 years of age (inclusive) at the start of employment;
- Canadian citizen, permanent resident, or person to whom refugee protection has been conferred under the *Immigration and Refugee Protection Act*; and
- Legally entitled to work in Canada in accordance with relevant provincial/territorial legislation and regulations.

Required Skills and Experience:

- Knowledge of invasive species affecting local environments;
- Plant, fish, and invertebrate identification skills;
- Knowledge and skills relating to monitoring local waters and natural areas for invasive species;
- Experience networking with resource professionals/agencies and engaging volunteers/public in invading species awareness and stewardship projects;
- Excellent written and oral communication skills, including experience conveying information to the public (e.g. presentations to community/contributing articles to newspapers/newsletters);
- Familiar with computer and database management skills (e.g. MS Office, MS Outlook, MS Teams, Internet);

- Knowledge of the principles of field work, such as accurate data recording, use of technical equipment, and record keeping;
- Ability to work flexible hours and perform occasional field work; and
- Strong organizational skills and the ability to work effectively with minimal supervision.

Other Requirements:

- Valid driver's licence (class G);
- Valid pleasure craft operators card (for positions required to operate watercraft);
- Valid criminal record check; and
- Valid OFAH Membership.

Assets:

- Valid emergency first aid with level A CPR and AED certification (as a minimum); and
- Valid fishing licence.

Please submit in **one document** a [OFAH Invasive Species Summer Technician Application Form](#), cover letter and résumé and how your skills and qualifications meet each of the requirements of this position to:
