

# SOUTH NATION CONSERVATION MUNICIPAL WORKPLAN NORTH DUNDAS

SOUTH NATION  
**CONSERVATION**  
DE LA NATION SUD

SOUTH NATION  
**CONSERVATION**  
DE LA NATION SUD

## MESSAGE FROM THE CHAIR:

Dear North Dundas,

Conservation Authorities are community-based environmental organizations dedicated to conserving, restoring, developing, and managing natural resources on a watershed scale.

South Nation Conservation (SNC) exists because of local initiatives and we recognize the importance of our continued partnership with our 16-member municipalities. In 2019, we look forward to building on these relationships and continuing to deliver key programs and services on your behalf.

Please review this summary document prepared for your Municipality by SNC staff.

Bill Smirle,  
Interim Chair, South Nation Conservation

### OUR VISION

Improved Water Quality for a Healthy Ecosystem: Our vision encompasses water levels which satisfy the needs of humans and the environment, healthy rivers and natural shorelines, and safe wastewater management practices.

### OUR MISSION

To ensure that the management of natural occurrences, natural resources, and human activities results in the protection or improvement of water resources.

### OUR EXPERTISE

Conservation is our core competency. SNC offers knowledge and experience to help our partners contribute to a healthy region.

SOUTH NATION CONSERVATION ADMINISTRATION BUILDING, FINCH

# FOSTERING LANDOWNER STEWARDSHIP

## WHAT WE DO:

- Plant approximately 120,000 trees per year and provide subsidies on tree purchases for landowners. SNC has planted 3.2 million trees since 1990.
- Offer free site visits and resources to woodlot owners, and offer \$500 grants to help develop forest management plans.
- Provide over \$75,000 annually in funding to landowners for projects that protect water quality through the Clean Water Program.
- Own approximately 12,000 acres of land acquired through donation or purchase, following SNC's Land Securement Strategy.
- Manage over 20,000 acres of Community Forest in Eastern Ontario; 9,467 in the United Counties of Stormont, Dundas and Glengarry (SDG).

## TO-DATE, IN NORTH DUNDAS:

- Planted 303,920 trees since 1990.
- Offered 9 woodlot owners our Woodlot Advisory Services since 2011, visiting 234 acres of land.
- Distributed over \$1,350 in forest management grants since 2014, helping protect approximately 140 acres of forest under private ownership.
- Provided over \$232,130 in funding to local landowners for projects that protect water quality since 1998.
- Planted 850 trees at 5 sites in SDG as part of the SDG Roadside Tree Project.

## 2019 PRIORITIES:

- In 2018, SNC published a report on "Protecting and Increasing Forest Cover in the South Nation Conservation Jurisdiction" following two years of consultation and review with local stakeholder working groups. In 2019, SNC will be working with municipalities to review and implement report recommendations.
- Through the Forest Conservation Initiative, SNC will be hosting community free tree days, creating riparian tree buffer demonstration sites and will offer a new increased tree planting subsidy to help plant more trees along fields and watercourses.
- SNC will continue to plant trees, manage community lands, offer resources, work with partners, and help fund important water quality improvement projects.

IN 2018, SNC PLANTED ITS 3 MILLIONTH TREE AT CAMP SHELDRICK IN WINCHESTER

# PROTECTING PEOPLE AND PROPERTY AND SUPPORTING SUSTAINABLE DEVELOPMENT

## WHAT WE DO:

- Map floodplains and other natural hazards, review construction and approve projects in and around watercourses, floodplains and wetlands.
- Conduct septic system inspections and permits for 13 municipalities.
- Work to protect drinking water through the Source Water Protection program.
- Flood Forecasting and Warning provides advance notice of flood conditions and updates on watershed conditions during flood events for the South Nation, Ottawa and St. Lawrence Rivers.
- Low Water Response provides declaration of drought conditions and offers guidance for reducing water consumption based on condition severity.
- Operate and maintain 7 water control structures.

## TO-DATE, IN NORTH DUNDAS:

- SNC maintains the Chesterville Dam, an important water control structure.
- 25.6 km<sup>2</sup> of flood hazard maps are regulated.
- 35.9 km of unstable slope has been mapped.
- 7 properties assessed for Risk Management Plans through the Source Water Protection program.

## LAST YEAR, IN NORTH DUNDAS:

- 38 septic approvals issued.
- 30 Planning Act application reviews.
- 8 permits processed.
- 5 low water advisory memos issued.
- 11 watershed conditions and flood statements issued.
- Developed planning tools and monitoring guidelines for stormwater facility management.

## 2019 PRIORITIES:

- Provide engineering services to member municipalities as needed.
- Continued maintenance and operation of erosion and water control structures.
- Provide emergency management services through Flood Forecasting and Warning and Low Water Response programs. SNC issues statements to allow member municipalities and the public respond to flood and low water conditions; accessible online.
- SNC will be acquiring state-of-the-art aerial imagery (LiDAR) with high resolution topography along the St. Lawrence River.

DOCKS IN CHESTERVILLE

# PROVIDING NATURAL SPACES AND RECREATIONAL OPPORTUNITIES

## WHAT WE DO:

- Own and manage over 12,000 acres of public, natural spaces.
- Operate 14 day-use parks and trails, including 9 public river access points.
- Protect environmentally significant properties and accept land donations.
- Protect over 7,000 km of fish habitat which support 72 fish species, offering endless recreational fishing opportunities.

## RECREATIONAL PARKS AND TRAILS IN NORTH DUNDAS:

In North Dundas, SNC owns and manages 1,156 acres of community land, properties for recreation and several canoe routes, encouraging residents to enjoy local nature:

- **The Oschmann Forest:** This 16-acre forest in Ormond is the new home of SNC's relaunched Maple Syrup Education Program. Recently donated to SNC by the Oschmann Family, the forest features interpretive walking trails, demonstrations of maple syrup production, boasts a great natural legacy and municipal park partnership opportunities.
- **Oak Valley Pioneer Park:** This 10-acre park is both a memorial to Eastern Ontario pioneers and a research site for the many nut tree species; pine, walnut, oak, and butternut.
- **Cass Bridge:** With a floating dock for safe boat launching, views of the South Nation River, and a play structure, this 2.6-acre park makes for a top paddling and picnic destination with over 6,360 visitors in 2018.
- **Camp Sheldrick:** SNC rents this 55-acre wilderness camp to Scouts Canada at no charge during the summer. This property has a cabin, camping area, fire pits, and ample space for outdoor sports and activities.
- SNC also has guides available for avid paddlers seeking to navigate the South Nation River, including three scenic routes that run through North Dundas: Great Blue Heron, King Fisher and Mill Run.

## LAST YEAR, IN THE SNC JURISDICTION:

In 2018, SNC's network of 14 Conservation Areas welcomed over 80,000 visitors to hike, geocache, picnic, kayak, canoe, launch their boat, bird watch, fish, and enjoy their local environment.

- SNC installed 100 new signs across its Community Lands to identify ownership and promote sustainable, proper management of forests; another 100 signs will be installed in 2019.
- An asset inventory was completed on SNC lands to help guide future management decisions, maintenance plans and park upgrades. The continuation of the park monitoring program will review visitor impact and help create memorable visitor experiences.

## 2019 PRIORITIES:

- SNC will continue to work with partner municipalities to increase visitor safety and enhance emergency preparedness at Conservation Areas.
- SNC is committed to regular maintenance and upkeep of parks and trails to ensure accessible recreation for residents. This includes grooming year-round to ensure safe trails during every season.

THE OSCHMANN FOREST IN ORMOND;  
RECENTLY ACQUIRED BY SNC THROUGH DONATION

# MAKING SCIENCE BASED DECISIONS

## WHAT WE DO:

- Collect water quality, stream health, fisheries and forestry data to support stewardship programs and guide sustainable development.
- Invasive species management and species at risk habitat assessments.
- Produce Subwatershed Report Cards and other reports on environmental health.
- Monitoring weather and water with groundwater and surface water stations.

## TO-DATE, IN NORTH DUNDAS:

- 26 sites monitored through the Ontario Stream Assessment Protocol (OSAP).
  - Over 1.32 km of stream has been evaluated for channel morphology, bank stability, stream flow, water quality, and invertebrate and fish community composition. Data guides habitat restoration priorities.
- 4 shoreline restoration projects.
- 1 groundwater monitoring station located at Cass Bridge Conservation Area.
- 3 surface water quantity and quality monitoring stations, located on the South Nation River at South Mountain, Inkerman, and Chesterville.
- In 2018, SNC released its South Nation Watershed Report Card: State of the Nation. This document provides watershed health information on natural resources and habitat features within the region.
- SNC has developed a new real-time hydrological model for the South Nation Watershed which enhances Flood Forecasting and Warning and Low Water Response Programs. In 2019, SNC will be seeking funding to expand the model to make results publicly accessible online.

## 2019 PRIORITIES:

- Subwatershed Report Cards are produced annually in different regions following a year of monitoring; reporting on surface and groundwater quality along with forest and wetland cover. The recently published report on the Lower South Nation Subwatershed highlights conditions in northern municipalities; SNC will be working on the Upper South Nation Subwatershed Report Card in 2019. Reporting is based on a 5-year rotation of monitoring programs.

FIELD MONITORING

# EMPOWERING COMMUNITIES AND YOUTH

## WHAT WE DO:

- Deliver curriculum-based education programs to over 2,000 local youth every year; including Youth Fish Camps, Youth Hunt Apprenticeships, the Stream of Dreams Community Art and Environmental Education Program, and the newly relaunched Maple Syrup Education Program.
- Regularly attend community events and fairs to network with residents and highlight SNC's programs and services.
- Offer over \$10,000 in Community Environmental Grants to non-profit community groups.
- Partner with school boards to deliver environmental high school program certifications.

## LAST YEAR, IN THE SNC JURISDICTION:

- SNC released its Community Lands Geopassport, guiding users through a real-life geocaching adventure on SNC Community Lands to learn more about the important benefits of forests.
- SNC hosted high school students at various project sites for Specialist High Skills Major certifications towards their high school diplomas.
- SNC delivered the Stream of Dreams program to nearly 1,000 local students.
- Thanks to support from Federal and Provincial funding agencies, SNC hires several local summer students every year from across its 4,384 square-kilometer jurisdiction in Eastern Ontario.
- SNC hosted dozens of local youth at its annual Fish Camps and Hunt Apprenticeship Programs.
- SNC worked with its local partners to help organize and host community events across the jurisdiction.

## 2019 PRIORITIES:

- SNC is relaunching its Maple Syrup Education Program for the 18<sup>th</sup> season at the Oschmann Forest in North Dundas. The not-for-profit education program hosts hundreds of local students a year, providing them with a hands-on environmental learning experience at a local sugar shack.
  - Students learn about the process of maple syrup production as it has evolved from First Nations traditions through to modern day production techniques. The program supplements the Ontario science curriculum and includes key teachable moments in areas of natural heritage, forest management, and ecosystem habitats.
- SNC will continue to work with its regional partners and member-municipalities to deliver meaningful environmental education and host community events across the jurisdiction.
- SNC will work with partners to create a new strategic vision and plan to position the Authority beyond the year 2020.

# YOUR PARTNER IN CONSERVATION

---

South Nation Conservation (SNC) contributes to the local environment thanks to the funding support of SNC's 16 member municipalities and self-generated revenue from donations, partnerships, and government grants.

## 2019 SNC BUDGET SUMMARY

**Budget:** \$7,494,977

---

- General Levy: \$3,360,323
- Special Levy: \$829,853
- Government Grants: \$592,852
- Partners: \$1,065,351
- User Fees: \$935,700
- Other Sources and Donations: \$710,898

For every \$100,000 in household assessment, your municipality contributes \$5.61 on average to South Nation Conservation. These contributions allow SNC to provide programs and services that promote watershed management, sustainability, and the protection of people and property.
